BARTLETT TREE EXPERTS

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Dawn Cann

Dawn graduated from Salve Regina University in 2001 with a bachelor's degree in Information Systems Science. She entered the corporate finance world and became an Executive Recruiter. However, eventually, Dawn knew it was time to follow advice she had given others about finding career happiness, so she pivoted to something she had long been passionate about: trees. Dawn joined Bartlett Tree Experts in 2020, she held the position Plant Health Care Specialist prior to becoming an Arborist Representative.

As an Arborist Representative, Dawn inspects, diagnoses, and provides recommendations on plant health care, soil care, and the structural integrity of trees for residential and commercial properties. She draws on the resources of the Bartlett Tree Research Laboratories to create programs that benefit her client's trees and shrubs in the communities of Bristol, Warren, Barrington, Portsmouth, and Middletown. She holds commercial pesticide applicator licenses in Rhode Island and Massachusetts.

In her free time, Dawn is an adventurer; one of her favorites was a zipline canopy tour at Hunter Mountain in New York - the second largest zipline in the world. She lives on Aquidneck Island with her husband, children and two rescue cats.
