BARTLETT TREE EXPERTS

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Angelique Frost

Angelique was born and raised in Ventura, California. She grew the desire and love of nature that stemmed from her grandfather, who studied and taught Biology in Pennsylvania. They spent many of his retired days out on walks or in our backyards, always looking up and often looking closely through a microscope. It wasn't until much later that she realized the impact he had left on her. Angelique joined Bartlett in May 2022.

Angelique received her bachelor's in science degree in Environmental Science from Cal State University Channel Islands. During her studies, she had the opportunity to work on tree inventory projects and participate in a multitude of community tree planting initiatives. These experiences, coupled with the experiences she has had here at Bartlett as a Plant Health Care Technician, solidified her desire to pursue a career in arboriculture.

As someone who is passionate about environmental conservation and fascinated by the intricate ecosystems that trees create, she is always eager to learn, protect, and educate.
