BARTLETT TREE EXPERTS

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

William Buckley

As a native of Maine, Will's dream of having a career in the outdoors led him to Unity College. There, he graduated with a Bachelor of Science degree in arboriculture and forestry. This experience guided his passion to care for trees.

In 2017, Will interned and subsequently became a full-time employee with Bartlett Tree Experts in Nantucket, Massachusetts. He fell in love with a profession that enabled him to help others enjoy the benefits of a healthy landscape. His summers consisted of identifying pests and diseases, conducting prescribed fertilizer treatments, and treating hundreds of properties using Bartlett's integrated pest management program. When winter arrived, you could find Will leading teams from the treetops, performing necessary pruning and removals to promote longevity and increase the safety of homeowners.

Will holds applicator licenses in Massachusetts and Maine, is a certified member of the International Society of Arboriculture, and served as the Local Office Safety and Training Coordinator in Bartlett's Scarborough, Maine location. He is currently an Arborist Representative, meeting with clients and advising them about maintaining the health of their landscapes.
