BARTLETT TREE EXPERTS

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Kiiven Wolf

Kiiven's passion for tree care began at a young age. Much of her childhood was spent learning from her father, who also works as an Arborist. In 2021, she earned a bachelor's degree in forestry from Michigan Technological University. She focused her education further with minors in Ecology and Environmental Science & Society. Her field work was centered around forest and tree health, with an emphasis on the impact of invasive species on biodiversity and forest succession. Shortly after graduation, Kiiven joined Bartlett Tree Experts.

Before becoming an Arborist Representative, she worked as a Plant Healthcare Specialist and Local Office Safety Coordinator. On pruning crews, she furthered her knowledge of the importance of proper pruning care for tree and shrub health. Kiiven is an ISA Certified Arborist and holds a Michigan Commercial Pesticide Applicator License. She is enthusiastic about helping clients make informed decisions regarding their landscape safety, health, and aesthetics.

In her spare time, Kiiven enjoys tending to her vegetable garden and chickens, writing music, and spending time with her coonhound, "Red."
