MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: 3336F

GENERIC NAME: Thiophanate-methyl

EPA REGISTRATION #: 1001-69

MANUFACTURER: Cleary Chemical Corp.

ACTIVE INGREDIENT(S): Thiophanate-methyl (dimethyl 4,4'-o-phenylenebis[3-thioallophanate])

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 877-325-1840

PRECAUTIONARY STATEMENTS: HUMANS AND DOMESTIC ANIMALS - Harmful if absorbed through skin. Harmful if inhaled. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mist. Handlers mixing, loading and applying the product as a dip must wear coveralls over long-sleeved shirt and long pants, waterproof gloves, chemical-resistant footwear plus socks, and chemical-resistant apron. Applicators and other handlers must wear long-sleeved shirt and long pants, waterproof gloves, shoes plus socks and chemical-resistant apron for mixers, loaders and other handlers exposed to concentrate. Remove and wash contaminated clothing before reuse. Do not reuse drenched or heavily contaminated clothing contaminated with this product's concentrate. **ENVIRONMENTAL:** Do not apply directly to water, or areas where surface water is present, or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters or rinsate. **EMERGENCY TREATMENT INFORMATION- If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. **If swallowed:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or for going to treatment. **RE-ENTRY INFORMATION:** Keep children and pets out of treated areas until sprays have dried.

PRODUCT NAME: ABAMECTIN 0.15 EC (QUALI-PRO)

GENERIC NAME: ABAMECTIN 0.15 EC

EPA REGISTRATION #: 66222-210

MANUFACTURER: FARMSAVER.COM, LLC

ACTIVE INGREDIENT: ABAMECTIN

SIGNAL WORD: WARNING

EMERGENCY PHONE NUMBER: 800- 535- 5053

PRECAUTIONARY STATEMENTS: HUMAN AND ANIMAL- Keep out of reach of children. May be fatal if swallowed. Causes substantial but temporary eye injury. Harmful if absorbed through the skin or inhaled. Avoid contact with skin or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. **ENVIRONMENTAL-** This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow to drift to blooming crops if bees are visiting the treated area. The use of this product may pose a risk to threatened and endangered species of fish, amphibians, crustaceans (including fresh water shrimp), and insects. **EMERGENCY TREATMENT INFORMATION-** **If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. **If in Eyes:** Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice. **If Inhaled:** Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth. Call poison control center or doctor for further treatment advice. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for going to treatment. **RE-ENTRY INFORMATION-** Do not re-enter treated areas until sprays have dried.

PRODUCT NAME: ACCORD CONCENTRATE

GENERIC NAME: Glyphosate

ACTIVE INGREDIENT: N-(phosphonomethyl)glycine in the form of its isopropylamine salt

EPA NUMBER: 62719-324

MANUFACTURER: Dow

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-992-4000

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Keep out of reach of children.

Domestic Animals: This product is considered to be relatively nontoxic to dogs and other domestic animals; however ingestion of this product or large amounts of freshly sprayed vegetation may result in temporary gastrointestinal irritation (vomiting, diarrhea, colic, etc). If such symptoms are observed, provide the animal with plenty of fluids to prevent dehydration. Call a veterinarian if symptoms persist for more than 24 hours. Applicators and other handlers must wear long-sleeved shirt and long pants, shoes plus socks. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. **ENVIRONMENTAL:** Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. **EMERGENCY TREATMENT INFORMATION:** Have the product container or label with you when calling a poison control center or doctor or going for treatment. **RE-ENTRY INFORMATION:** Keep people and pets off treated areas until spray solution has dried to prevent transfer of this product onto desirable vegetation.

PRODUCT NAME: ALTUS

GENERIC NAME: ALTUS

EPA REGISTRATION #: 432-1575

MANUFACTURER: Bayer

ACTIVE INGREDIENT(S): Flupyradifurone

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-334-7577

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Applicators and other handlers must wear long sleeved shirt and long pants, chemical resistant gloves (made of barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, polyvinyl chloride (PVC) or viton), and shoes plus socks. **ENVIRONMENTAL HAZARDS** Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate. This pesticide is toxic to aquatic invertebrates. Toxic to adult bees in laboratory studies via oral exposure, however, not toxic to bees through contact exposure, and field studies conducted with this product have shown no effects on honeybee colony development. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours. **EMERGENCY TREATMENT INFORMATION:** **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **Note to physician:** No specific antidote is available. Treat the patient symptomatically. **RE-ENTRY INFORMATION:** Do not enter or allow others to enter the treated area until sprays have dried.

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL-**Keep out of reach of children. May be fatal if swallowed. Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear. Harmful if inhaled or absorbed through the skin. Avoid contact with skin. Prolonged or frequently repeated exposure may cause allergic skin reactions in some individuals. Do not breathe vapor. Applicators and other handlers must wear coveralls worn over short sleeve shirt and pants, chemical resistant gloves, chemical resistant footwear and socks and protective eyewear and dust/mist filtering respirator. Wear chemical resistant headgear for overhead protection. Wear chemical resistant apron when mixing, loading or cleaning equipment. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this products concentrate. Do not reuse them. **ENVIRONMENTAL-** This material is toxic to fish and wildlife. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. This product is highly toxic to bees exposed by direct treatment or residues on blooming crops or weeds. **EMERGENCY TREATMENT INFORMATION: Information** **If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice. Note to Physician: Early signs of intoxication include dilation of pupils, muscular incoordination and muscular tremors. Toxicity following accidental ingestion of Avid can be minimized by early administration of chemical adsorbents (e.g. activated charcoal). If toxicity from exposure has progressed to cause severe vomiting, the extent of resultant fluid and electrolyte imbalance should be gauged. Appropriate supportive parental fluid replacement therapy should be given, along with other required supportive measures (such as maintenance of blood pressure levels and proper respiratory functionality) as indicated by clinical signs, symptoms and measurements. In severe cases, observations should continue for at least several days until clinical condition is stable and normal. Since Abamectin is believed to enhance GABA activity in animals. It is probably wise to avoid drugs that enhance GABA activity in patients with potentially toxic Abamectin exposure. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** None

BTRL

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: ASTRO (CODE 1547)

GENERIC NAME: Permethrin

EPA REGISTRATION #: 279-3141

MANUFACTURER: FMC Corporation

ACTIVE INGREDIENT(S): (3-Phenoxy phenyl) Methyl ($\pm$) CIS-TRANS 3-(2-2 dichloroethenyl)2,2 dimethyl cyclopropanecarboxylate

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-331-3148

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL-** Keep out of reach of children. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Applicators and handlers must wear long sleeve shirt and long pants, chemical resistant gloves, shoes, plus socks. Users must wash hands before eating, drinking, chewing gum, using tobacco or the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing **ENVIRONMENTAL-** This pesticide is highly toxic to bees exposed to direct treatment or as residues on crops or weeds where bees are actively foraging. Contact extension service for further information. This product is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters. **EMERGENCY TREATMENT INFORMATION:**

If swallowed: Call physician or poison control center immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** Move victim to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth.. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or a doctor for treatment advice . **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **NOTE TO PHYSICIAN:** This product contains aromatic hydrocarbons, which can produce severe pneumonitis if aspirated. Consideration should be given to gastric lavage with an endotracheal tube in place. Treatment is controlled removal of exposure followed by symptomatic and supportive care. **RE-ENTRY INFORMATION:** Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not allow people or pets on treated surfaces until the spray has dried. Do not touch treated surface until dry.

PRODUCT NAME: AZASOL

GENERIC NAME: Azadirachtin

EPA REGISTRATION #: 81899-4-74578

MANUFACTURER: Arborjet

ACTIVE INGREDIENT(S): Azadirachtin

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-858-7378

PRECAUTIONARY STATEMENTS: HUMANS AND DOMESTIC ANIMALS: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Avoid breathing spray mist. Remove contaminated clothing and wash clothing before reuse. Applicators and other handlers must wear long-sleeved shirt and long pants, socks and shoes, and chemical resistant gloves.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic invertebrates. Terrestrial uses, do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters.

EMERGENCY TREATMENT INFORMATION:
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not enter treated areas without protective clothing until sprays have dried.

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL-**Keep out of reach of children. Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes or clothing. Do not breathe mist. Prolonged or frequently repeated exposure may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse. This material is not to be used for medical, veterinary, or human purposes. Applicators must wear vlong sleeved shirt, long pants, chemical resistant glove, shoes and socks.

ENVIRONMENTAL- Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash water. **EMERGENCY TREATMENT INFORMATION:** Call a poison control center or a doctor for treatment information. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. . **RE-ENTRY INFORMATION:** None

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: BADGE SC

GENERIC NAME: Copper hydroxide, Copper Oxychloride

EPA REGISTRATION #: 80289-3-10163

MANUFACTURER: Isagro USA

ACTIVE INGREDIENT(S): Copper hydroxide, Copper Oxychloride

SIGNAL WORD: Warning

EMERGENCY PHONE NUMBER: 800-424-9300

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL:** Keep out of reach of children. May be fatal if swallowed. Causes substantial but temporary eye injury. Harmful if absorbed through skin. Harmful if inhaled. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Do not get in eyes or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses). Remove and wash contaminated clothing before reuse. Avoid contact with skin, eyes or clothing. Wear long-sleeved shirt and long pants, socks, shoes and chemical resistant gloves. Avoid breathing dust. **ENVIRONMENTAL:** This pesticide is toxic to fish and aquatic invertebrates and may contaminate water through runoff. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or to other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems with previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water when disposing of equipment washwaters or rinsate. For terrestrial uses: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to fish and aquatic organisms in adjacent aquatic sites. Do not contaminate water by disposal of equipment washwaters. This product may contaminate water through runoff. This product has a potential for runoff for several months or more after applications. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Certain water conditions including low pH (≤ 6.5), low dissolved organic carbon levels (3.0 mg/L or lower) and soft waters (i.e. alkalinity less than 50 mg/L) increases the potential acute toxicity to non-target aquatic organisms. **EMERGENCY TREATMENT INFORMATION:** **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **Note to Physician:** Probable mucosal damage may contraindicate use of gastric lavage. Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY:** Do not allow adults, children or pets to enter until dusts have settled.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: BASELINE

GENERIC NAME: Bifenthrin

EPA NUMBER: 279-3177

ACTIVE INGREDIENT: Bifenthrin

MANUFACTURER: FMC Corporation

SIGNAL WORD: Warning

EMERGENCY PHONE NUMBER: 1-800-331-3148

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: May be fatal if swallowed. Causes skin irritation and moderate eye irritation. Do not get on skin or on clothing. Avoid breathing vapors or spray mist, and contact with eyes. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash contaminated clothing before reuse. All pesticide handlers must wear long sleeved coveralls worn over a minimum of short-sleeved shirt and short pants, socks, chemical-resistant footwear, chemical resistant gloves and protective eyewear. After the product is diluted in accordance with label directions for use, shirt, pants, socks, shoes and waterproof gloves are sufficient. All pesticide handlers must wear a respiratory protection device when handling the concentrate or when working in a non-ventilated space.

ENVIRONMENTAL: This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters. Do not apply when weather conditions favor drift from treated areas. Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds. Do not apply this product or allow it to drift to crops or weeds on which bees are actively foraging. In New York State, this product may not be applied to any grass or turf area within 100 feet of a water body.

EMERGENCY TREATMENT INFORMATION: **If swallowed:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. PRODUCT NAME: LESCO BANDIT 2F

GENERIC NAME: Imidacloprid

EPA REGISTRATION #: 432-1312

MANUFACTURER: Bayer

ACTIVE INGREDIENT(S): 1-[6-chloro-3-pyridinal)methyl]-N-Nitro-2-imidazolidnimine

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-334-7577

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Applicators and other handlers must shirt and pants, gloves and shoes and socks.

ENVIRONMENTAL- This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

EMERGENCY TREATMENT INFORMATION **If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance and then administer artificial respiration, preferably mouth to mouth. Call a poison control center or doctor for treatment advice.. **Note to Physician: No specific antidote is available. Treat the patient symptomatically.** Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION-** Keep children or pets off treated area until sprays have dried.

PRODUCT NAME: CHLOROTHALONIL 720

GENERIC NAME: Chlorothalonil

EPA REGISTRATION #: 66222-154

MANUFACTURER: Quali-Pro

ACTIVE INGREDIENT(S): Chlorothalonil (tetrachloroisophthalonitrile)

SIGNAL WORD: WARNING

EMERGENCY PHONE NUMBER: 1-877-250-9291

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Keep out of reach of children. Causes eye irritation. May cause skin irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Do not get into eyes, on skin, or on clothing. Avoid prolonged contact with skin. Avoid breathing spray mist. Do not take internally. Note to user: This product may produce temporary allergic side effects characterized by redness of the eyes, mild bronchial irritation, and redness or rash on exposed skin areas. Persons having allergic reactions should contact a physician. Applicators and other handlers must wear long-sleeved shirt and long pants, chemical-resistant gloves (such as nitrile rubber, natural rubber, or butyl rubber), shoes plus socks, protective eyewear, and a dust/mist-filtering respirator if the mixer/loader/applicator uses a high pressure, hand-wand sprayer.

ENVIRONMENTAL This product is toxic to aquatic invertebrates and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater or rinsate. **EMERGENCY TREATMENT INFORMATION:** **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious or convulsing person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **Note to physician:** Persons having temporary irritation may respond to treatment with antihistamines or steroid creams and/or systemic steroids. **RE-ENTRY INFORMATION:** Do not enter or allow others to enter the treated area until sprays have dried.

PRODUCT NAME: CLEARCAST

GENERIC NAME: Clearcast

EPA REGISTRATION #: 241-437-67690

MANUFACTURER: NuFarm

ACTIVE INGREDIENT(S): Ammonium salt of imazamox 2, methylethyl, methoxymethol, pyridinecarboxylic acid

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-535-5053

PRECAUTIONARY STATEMENTS: **PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL-** Keep out of reach of children. Harmful if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Applicators and other handlers must wear long-sleeved shirt and long pants, gloves, shoes and socks. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. **ENVIRONMENTAL HAZARDS** This pesticide is toxic to birds, estuarine/marine invertebrates and fish. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. This product is toxic to bees exposed to direct treatment. Do not apply this product while bees are foraging the treatment area. This product may impact surface water quality due to runoff of rainwater. **PHYSICAL OR CHEMICAL HAZARDS** Do not use or store near heat or open flame. Do not mix or allow to come into contact with oxidizing agents. Hazardous chemical reaction may occur. **EMERGENCY TREATMENT INFORMATION: If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** Keep unprotected persons out of treated areas until sprays have dried.

PRODUCT NAME: CLEARSPRAY TO

GENERIC NAME: ClearSpray TO

EPA REGISTRATION #: Exempt

MANUFACTURER: Cleary Chemicals LLC

ACTIVE INGREDIENT(S): Acrylic Polymer

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER:

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Harmful if swallowed. Avoid prolonged contact with skin. Wash hands thoroughly after using. Avoid contact with eyes. Avoid breathing spray mists. Keep out of reach of children. Wear protective clothing when handling or applying this product, including long pants, long sleeve shirt, and impermeable gloves and boots. **ENVIRONMENTAL** Do not apply directly to water or contaminate water by cleaning of equipment or disposal of waste. Do not contaminate irrigation ditches or water used for domestic purposes. Do not spray when the wind is blowing sufficiently to cause drift. Do not when the temperature is below 40F or when trees or turf are frost covered. To ensure proper drying, it is best to spray when no immediate rain is anticipated. **EMERGENCY TREATMENT INFORMATION: If inhaled:** Remove to fresh air. **If swallowed:** Drink 1 or 2 glasses of water, induce vomiting by touching the back of the throat, contact physician or poison control center. **If on skin:** Wash exposed areas with soap and water, seek medical attention as needed. **If in eyes:** Flush eyes with water, contact a physician for irritation as needed. **RE-ENTRY INFORMATION:** Keep children and domestic animals away from treated areas until the spray had dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: COMPASS

GENERIC NAME: Trifloxystrobin

EPA REGISTRATION #: 432-1371

MANUFACTURER: Bayer

ACTIVE INGREDIENT(S): Trifloxystrobin

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-334-7577

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL-** Causes moderate eye irritation. Harmful if absorbed through the skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL- This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters. Several trifloystrobin degrades have properties and characteristics associated wit chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in ground water contamination.

EMERGENCY TREATMENT INFORMATION: **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin or clothing-** Take off contaminated clothing. Rinse skin immediately with plenty for water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **RE-ENTRY INFORMATION-** Do not enter treated areas without protective clothing until sprays have dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: CONFIRM 2F

GENERIC NAME: Tebufenozide

EPA REGISTRATION #: 8033-111-10163

MANUFACTURER: Rohm and Haas/Dow AgroSciences

ACTIVE INGREDIENT(S): Benzoic acid, 3,5-dimethyl-, 1-(1,1 dimethylethyl)-2-(4-ethylbenzoyl)hydrazide

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 928-783-3803

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. May cause eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Do not swallow, get in eye, on skin or breathe spray mist. Applicators and other handlers must wear long-sleeved shirt and long pants, waterproof gloves, shoes and socks. **ENVIRONMENTAL-** This product is toxic to aquatic invertebrates. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Under some conditions, this chemical may also have a high potential for runoff into surface water for several weeks or months after application. Do not cultivate within 10 feet of aquatic areas so as to allow growth of a vegetative filter strip. Drift from application of this pesticide is likely to result in damage to sensitive aquatic invertebrates in water bodies adjacent to treatment areas. For terrestrial uses, do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark except under forest canopy when aerially applied to control forest pests. Do not contaminate water when disposing of equipment wash waters and rinseate. Do not apply when weather conditions favor drift from areas treated. This pesticide demonstrates the properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in ground water contamination.

EMERGENCY TREATMENT INFORMATION: **If swallowed-** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If in eyes-** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin-** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. **RE-ENTRY INFORMATION-** Keep unprotected persons out of treated areas until sprays have dried.

EPA REGISTRATION #: 62719-291

MANUFACTURER: Dow AgroSciences

ACTIVE INGREDIENT(S): Spinosyn A, Spinosyn D

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-992-5994

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Applicators and other handlers should wear long-sleeved shirt and long pants, shoes and socks.

ENVIRONMENTAL- This product is toxic to bees exposed to treatment for 3 hours following treatment. Do not apply this pesticide to blooming, pollen-shedding or nectar-producing parts of plants if bees may forage on the plants during this time period. This product is toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water cleaning equipment or when disposing of equipment waste waters.

EMERGENCY TREATMENT INFORMATION: None **RE-ENTRY INFORMATION-** Adults, children, and pets should not contact treated surfaces until the spray has dried.

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: Cryolite Bait

GENERIC NAME: Cryolite

EPA REGISTRATION #: 10163-225

MANUFACTURER: Gowan Company

ACTIVE INGREDIENT(S): Sodium aluminofluoride

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 888-478-0798

PRECAUTIONARY STATEMENTS: HUMANS AND DOMESTIC ANIMALS - Harmful if absorbed through skin. Harmful if inhaled. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mist. Handlers mixing, loading and applying the product as a dip must wear coveralls over long-sleeved shirt and long pants, waterproof gloves, chemical-resistant footwear plus socks, and chemical-resistant apron. Applicators and other handlers must wear long-sleeved shirt and long pants, waterproof gloves, shoes plus socks. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters.

EMERGENCY TREATMENT INFORMATION- If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. **If swallowed:** Call poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **RE-ENTRY INFORMATION:** Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

EPA REGISTRATION #: 67690-37

MANUFACTURER: SePro

ACTIVE INGREDIENT(S): Copper hydroxide

SIGNAL WORD: Warning

EMERGENCY PHONE NUMBER: 800-535-5053

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Keep out of reach of children. Causes substantial but temporary eye injury. Harmful if swallowed, absorbed through skin or inhaled. May cause skin sensitization reactions in certain individuals. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Applicators and other handlers must wear: long-sleeved shirt and long pants; chemical resistant gloves; shoes plus socks; protective eyewear. **ENVIRONMENTAL:** This pesticide is toxic to fish and aquatic organisms. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to fish and aquatic organisms in adjacent aquatic sites. Do not contaminate water by disposal of equipment washwaters. **EMERGENCY TREATMENT INFORMATION: If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **Note to Physician:** Probable mucosal damage may contraindicate use of gastric lavage. Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY:** Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in area during treatment. Keep unprotected persons out of treated areas until sprays have dried.

Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: DACONIL WEATHER STIK

GENERIC NAME: Chlorothalonil

EPA REGISTRATION #: 50534-209-100

MANUFACTURER: Syngenta

ACTIVE INGREDIENT(S): Chlorothalonil

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-888-8372

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Keep out of reach of children. Harmful if swallowed, absorbed through skin or inhaled. Causes moderate eye injury. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear long sleeved shirt, long pants, socks, shoes, and chemical resistant gloves. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL: This pesticide is toxic to aquatic invertebrates and wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by disposal of equipment washwaters. This chemical is known to leach through soil into groundwater under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. This chemical can contaminate surface water through spray drift. Under some conditions, it may have a high potential for runoff into surface water for several days to weeks after applications. These include poorly draining soils or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas over-laying extremely shallow ground water, areas with infield canals or ditches that drain to surface water, areas not separated from, adjacent surface waters with vegetated filter strips and areas over-laying tile drainage systems that drain water to surface water.

EMERGENCY TREATMENT INFORMATION: **If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on Skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **Note to Physician:** Persons suffering from temporary allergic skin reactions may respond to treatment with oral antihistamines and topical or oral steroids. **RE-ENTRY:** Do not enter or allow others to enter area until sprays have dried.

PRODUCT NAME: DEERPRO

GENERIC NAME: Thiram

EPA REGISTRATION #: 84178-1

MANUFACTURER: Great Oak, Inc.

ACTIVE INGREDIENT(S): Thiram

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 800-535-5053

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Causes eye and skin irritation.. Harmful if swallowed, inhaled or absorbed through skin. Avoid inhaling spray mist. Routinely shower or bathe after work. Consumption of alcoholic beverages increase the toxic effects of Thiram. Applicators, mixers, loaders and other handlers must wear: long-sleeved shirt and long pants; chemical resistant gloves; shoes plus socks; chemical resistant apron when mixing, loading, cleaning-up spills, cleaning equipment or otherwise exposed to the concentrate.. **ENVIRONMENTAL:** This pesticide is toxic to fish, aquatic invertebrates, oysters and shrimp. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by disposal of equipment washwaters or rinseate. This product may have effects on federally listed threatened or endangered species or their critical habitat in some counties. It is a violation of Federal law to kill, harm or harass listed animal species without authorization. To limit the potential for such impacts when using this product, consult and follow the instructions provided in the EPA Endangered Species Bulletin for the County or Parish in which you are applying the seed. **EMERGENCY TREATMENT INFORMATION: If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **Note to Physician:** No specific antidote is available. Treat symptomatically. In the presence of consumed alcohol, Thiram responds similarly to Disulfuram. **RE-ENTRY:** Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in area during treatment. Keep unprotected persons out of treated areas until sprays have dried.

Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible Call a poison control center or doctor for treatment advice. **Note to Physicians:** If ingested, probable mucosal damage may contraindicate the use of gastric lavage. This product contains a light hydrocarbon liquid; ingestions or subsequent vomiting can result in aspiration of this product which can cause pneumonitis. . Have the product container or label with you when calling a poison control center or doctor or going for treatment. **RE-ENTRY-** Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in the area during application.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: DYLOX 6.2

GENERIC NAME: Trichlorfon & Dimethyl

EPA REGISTRATION #: 432-1308

MANUFACTURER: Bayer

ACTIVE INGREDIENT(S): Trichlorfon, Dimethyl (2,2,2-trichloro-1-hydroxy-thyl) phosphonate

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 800-334-7577

PRECAUTIONARY STATEMENTS: HUMANS AND DOMESTIC ANIMALS Harmful if swallowed. Causes moderate eye irritation. Do not take internally. Do not breathe dust. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some people. Mixers, Loaders, Applicators and other handlers must wear long-sleeved shirt and long pants, and shoes plus socks. **ENVIRONMENTAL HAZARDS** This product is toxic to fish, birds, and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when turf grass areas are water-logged or

the soil is saturated with water (i.e. will not allow penetration into the root zone of the plant). Avoid run-off or puddling of irrigation water following application. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Do not use on crops used for food or forage. **EMERGENCY TREATMENT INFORMATION:** **If inhaled:** If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately. Move to fresh air. Keep patient warm and at rest. **If on skin or clothing:** Wash off immediately with plenty of water for at least 15 minutes. Take off contaminated clothing and shoes immediately. Call a physician or poison control center immediately. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately. **If ingested:** Never give anything by mouth to an unconscious person. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Rinse out mouth and give water in small sips to drink. Call a physician or poison control center immediately. **Note to Physician:** Prolonged exposure will cause cholinesterase depression. Atropine Sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine. **RE-ENTRY INFORMATION:** Do not enter or allow others to enter the treated area (except those persons involved in the incorporation) until the incorporation is complete. Incorporation is to be accomplished by watering-in. Do not enter or allow others to enter the treated area until the surface is dry after the watering-in.

MANUFACTURER: MGK

ACTIVE INGREDIENT(S): Pyrethrins

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 888-740-8712

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Harmful if absorbed through skin. Harmful if swallowed. Causes moderate eye irritation. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using toilet. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear long-sleeved shirt and long pants, socks, shoes, and chemical-resistant gloves. As soon as possible, wash thoroughly and change into clean clothing. **ENVIRONMENTAL-** This product is toxic to aquatic organisms, including fish and invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. Do not contaminate water when disposing of equivalent washwaters. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. **EMERGENCY TREATMENT INFORMATION: If swallowed-** Immediately call a poison control center or a doctor. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If in eyes-** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue to rinse the eye. Call a poison control center or doctor for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible. Call a poison control center or doctor for treatment advice. PRODUCT NAME: FLOREL Brand Growth Regulator

GENERIC NAME: Ethephon

EPA REGISTRATION #: 54705-8

MANUFACTURER: Monterey

ACTIVE INGREDIENT(S): Ethephon [(2-chloroethyl) phosphonic acid]

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-424-9300

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL-**Keep out of reach of children. Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse. Wear long-sleeved shirt and long pants, sock and shoes and chemical resistant gloves.

ENVIRONMENTAL- Do not apply directly to water. Do not contaminate water when disposing of equipment wash-waters or rinsate. Avoid spray drift to nearby crops as this product may cause temporary modifications in plant growth. Prolonged exposure to spray deposits can damage acrylic plastics, certain paints, and metals. Remove automobiles and other vehicles from the treatment area prior to application to prevent spray deposits from falling on vehicles and potentially damaging finishes. Rinse acrylic plastic materials and painted surfaces exposed to inadvertent spray deposits using soap and water within an hour after exposure.

EMERGENCY TREATMENT **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **Not to physician:** Treat symptomatically. No specific antidote is available. Probable mucosal damage may contraindicate the use of gastric lavage. **RE-ENTRY INFORMATION:** DO NOT allow people (other than applicator) or pets on treatment area during application. DO NOT allow people or pets to touch treated plants until sprays have dried.

GENERIC NAME: Spiromesifen

EPA REGISTRATION #: 432-1279

MANUFACTURER: Bayer

ACTIVE INGREDIENT(S): 2-oxo-3-(2, 4, 6- trimethylphenyl)- 1-oxaspiro [4, 4] non-3-en-4-yl 3,3- dimethylbutanoate

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-334-7577

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Keep out of reach of children. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist.

Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Mixers, loaders and other handlers must wear long-sleeved shirt and long pants, chemical resistant gloves (such as natural rubber, selection category A), shoes plus socks. Applicators must wear long-sleeved shirt and long pants, and shoes plus socks. **ENVIRONMENTAL HAZARDS** This pesticide is toxic to fish and aquatic invertebrates. Avoid contamination of surface water through runoff or spray drift. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwater. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours. **EMERGENCY TREATMENT INFORMATION: If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Call a poison control center or doctor for further treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. **Note To Physician:** No specific antidote is known. Treat symptomatically. Have a product container or label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** None

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: GF-120 NF NATURALYTE

GENERIC NAME: Spinosad

EPA NUMBER: 62719-498

ACTIVE INGREDIENT: Spinosad (mixture of spinosyn A and spinosyn D)

MANUFACTURER: Dow AgroSciences

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-992-5994

PRECAUTIONARY STATEMENTS: HUMAN AND ANIMALS Harmful if swallowed. Wash thoroughly with soap and water after handling. Applicators and other handlers must wear long sleeved shirt and long pants, and shoes plus socks. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. **ENVIRONMENTAL** This product is toxic to aquatic invertebrates and wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Do not apply where run off is likely to occur. Do not apply when weather conditions favor drift from treated area. **EMERGENCY TREATMENT INFORMATION. If swallowed:** Call a poison control center or doctor immediately for treatment advice Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or for going for treatment. **RE-ENTRY INFORMATION:** Twelve hours for agricultural applications. There are no specific entry requirements following application of this product when applied by government agencies in area-wide eradication and prevention programs.

PRODUCT LABEL INFORMATION SHEET

PRODUCT NAME: GOWAN CRYOLITE BAIT

GENERIC NAME: Cryolite

EPA NUMBER: 10163-225

ACTIVE INGREDIENT: Cryolite: Sodium aluminofluoride

MANUFACTURER: Gowan

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-888-478-0798

PRECAUTIONARY STATEMENTS: HUMAN AND ANIMALS Harmful if swallowed, absorbed through skin, or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Applicators and other handlers must wear long-sleeved shirt and long pants, waterproof gloves, and shoes plus socks. **ENVIRONMENTAL HAZARDS** Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. **EMERGENCY TREATMENT INFORMATION.** **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes.** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** Twelve hours for agricultural applications. None for other applications.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: HERITAGE

GENERIC NAME: Azoxystrobin

EPA NUMBER: 100-1093

ACTIVE INGREDIENT: (E)-2-(2-(6(2-cyanophenoxy)pyrimidin-4-yloxy)phenyl)-3-methoxyacrylate

MANUFACTURER: Syngenta

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-888-8372

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Harmful is absorbed through the skin. Cause moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Applicators and other handlers must wear long-sleeved shirt and long pants, chemical resistant gloves and shoes plus socks. Do not treat areas while unprotected humans or domestic animals are present in the treatment areas. **ENVIRONMENTAL:** The active ingredient, azoxystrobin, in this product can be persistent for several months or longer. Azoxystrobin has degradation products which have properties similar to chemicals which are known to leach through soil to groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. This pesticide is toxic to freshwater and estuarine/marine fish and aquatic invertebrates. Do not apply directly to water except as specified on this label. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high-water mark. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminated water when disposing of equipment washwater or rinsate. Notify state and/or federal authorities and Syngenta immediately if you observe any adverse environmental effects due to use of this product. **EMERGENCY TREATMENT INFORMATION: If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **RE-ENTRY INFORMATION :** Do not allow entry into treatment area until areas that was treated with heritage is dry.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

PRODUCT NAME: HORTICULTURAL OIL (LESCO)

GENERIC NAME: Paraffinic Oil

EPA REGISTRATION #: 10404-66

MANUFACTURER: LESCO Inc.

ACTIVE INGREDIENT(S): Paraffinic Oil

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful absorbed through the skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Applicators and other handlers must wear: Long-sleeved shirt and long pants, chemical-resistant gloves. **ENVIRONMENTAL-** Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. **EMERGENCY TREATMENT INFORMATION: IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to a person. Do not give anything by mouth to an unconscious person. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.

RE-ENTRY: Keep children and pets off of treated areas until sprays have dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: HORTICULTURAL OIL (Rainbow)

GENERIC NAME: Refined Petroleum Distillate

EPA REGISTRATION #: 74779- 9

MANUFACTURER: Rainbow Tree Scientific Advancements

ACTIVE INGREDIENT(S): Refined Petroleum Distillate

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful absorbed through the skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Applicators and other handlers must wear: Long-sleeved shirt and long pants, chemical-resistant gloves. **ENVIRONMENTAL-** This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label. **EMERGENCY TREATMENT INFORMATION: IF SWALLOWED:** Immediately call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to a person. Do not give anything by mouth to an unconscious person. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses,

if present, after the first five minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice. Note to Physician: Petroleum distillate poses a aspiration pneumonia reaction. Only minor irritation should be expected from any type of exposure other than pulmonary aspiration. Ingestion may result in some gastroenteritis and mild diarrhea. Since systemic toxicity is expected, the added risk of aspiration from attempts to induce vomiting or lavage are deemed not warranted.

RE-ENTRY: Keep children and pets off of treated areas until sprays have dried.

This products contains a chemical (N-methyl pyrolidone) known to the state of California to casue birth defects or other reproductive harm. **ENVIRONMENTAL-** This pesticide is toxic to fish and wildlife. Do not

apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow to drift to blooming crops if bees are visiting the treated area. **EMERGENCY TREATMENT INFORMATION- If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or a doctor. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice. **If Inhaled:** Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth. Call poison control center or doctor for further treatment advice. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for going to treatment.

RE-ENTRY INFORMATION-Do not re-enter treated areas until sprays have dried.

PRODUCT NAME: M-PEDE

GENERIC NAME: Potassium Salts of Fatty Acids

EPA REGISTRATION #:10163-324

MANUFACTURER: Dow Agrosiences

ACTIVE INGREDIENT(S): Potassium salts of fatty acids

SIGNAL WORD: WARNING

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS:HUMAN & ANIMAL- Keep out of reach of children. Causes substantial but temporary eye injury or skin irritation. Do not get into eyes, on skin or on clothing. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing before reuse. Handlers who are exposed to diluted product through application or other tasks must wear: long-sleeved shirts and long pants, shoes and socks. Handlers who may be exposed to the concentrate through mixing and loading, application or other tasks must wear coveralls over short sleeved shirt and short pants, chemical resistant gloves, chemical resistant footwear and socks, protective eyewear, chemical resistant headgear, chemical resistant apron. **EMERGENCY**

TREATMENT INFORMATION: If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutesCall a poison control center or doctor for treatment advise. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **ENVIRONMENTAL-**This product may be hazardous to aquatic invertebrates. Do not apply directly to water, areas where surface is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposing of equipment washwater.

RE-ENTRY-None

PRODUCT NAME: MANCOZEB DG

GENERIC NAME: Mancozeb

EPA REGISTRATION #: 62719-402-10404

MANUFACTURER: LESCO, Inc.

ACTIVE INGREDIENT(S): Manganese, Zinc, Ethylene bisdithiocarbamate

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-424-9300

PRECAUTIONARY STATEMENTS:HUMAN & ANIMAL- Keep out of reach of children. May cause irritation of nose, throat, eyes and skin. Do not breathe dust or spray mist. Applicators and handlers must wear long-sleeved shirt and long pants, chemical resistant gloves: shoes, socks and protective eyewear. During mixing and loading, a chemical-resistant apron must also be worn. Keep all unprotected persons, children, livestock and pets away from area or where there is a danger of drift.

ENVIRONMENTAL- This pesticide is toxic to fish. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. For terrestrial uses, do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or disposing of wastes.

EMERGENCY TREATMENT INFORMATION: **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If in eyes-** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin-** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If swallowed-** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **RE-ENTRY INFORMATION-** Keep unprotected persons out of treated areas until sprays have dried. Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in area during application.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: MECTINITE

GENERIC NAME: Enamectin Benzoate

EPA REGISTRATION #: 74779-17

MANUFACTURER: Rainbow Treecare Scientific Advancements

ACTIVE INGREDIENT(S): Enamectin Benzoate

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Applicators and other handlers must wear long-sleeved shirt and long pants, chemical-resistant gloves (Category C) such as barrier laminate; butyl rubber ≥ 14

mils; nitrile rubber ≥ 14 mils; or neoprene rubber ≥ 14 mils, shoes and socks, and protective eyewear.

ENVIRONMENTAL- This product is highly toxic to fish, mammals, and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-water. This product is highly toxic to bees exposed to direct treatment or residues on blooming trees. **PHYSICAL OR CHEMICAL**

HAZARDS: Do not use or store near heat or open flame. Do not mix or allow to come into contact with an oxidizing agent. Hazardous chemical reaction may occur. **EMERGENCY TREATMENT**

INFORMATION: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for

15-20 minutes. Call a poison control center or doctor for treatment advice. **If swallowed-** Call poison control center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **NOTE TO PHYSICIAN:**

Early signs of intoxication include dilation of pupils, muscular incoordination, and muscular tremors. Vomiting within one-half hour of exposure can minimize toxicity following accidental ingestion of the product; rapidly after exposure (<15 minutes) administer repeatedly medical charcoal in a large quantity of water or ipecac. If toxicity from exposure has progressed to cause severe vomiting, the extent of resultant fluid and electrolyte imbalance should be gauged. Appropriate supportive parenteral fluid replacement therapy should be given, along with other required supportive measures (such as maintenance of blood pressure levels and proper respiratory functionality) as indicated by clinical signs, symptoms, and measurements. In severe cases, observations should continue for at least several days until clinical condition is stable and normal. Since ivermectin benzoate is believed to enhance GABA activity in animals, it is probably wise to avoid drugs that enhance GABA activity (barbiturates, benzodiazepines, valproic acid) in patients with potentially toxic ivermectin benzoate exposure.

PRODUCT NAME: MEFENOXAM 2 AQ (QUALI-PRO)

GENERIC NAME: MEFENOXAM 2 AQ

EPA REGISTRATION #: 66222-216

MANUFACTURER: FARMSAVER.COM, LLC

ACTIVE INGREDIENT: MEFENOXAM

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 877-250-9291

PRECAUTIONARY STATEMENTS: HUMAN AND ANIMAL- Keep out of reach of children. Harmful if absorbed through the skin. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL- Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated area. Do not contaminate water when disposing of equipment wash waters. This chemical is known to leach through soil into ground water under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

EMERGENCY TREATMENT INFORMATION- If Swallowed: Call a poison control center or doctor immediately for treatment advice. Induce vomiting by giving person two glasses of water and sticking finger down throat. Do not give anything by mouth or induce vomiting to an unconscious person. If in Eyes: Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice. If Inhaled: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth. Call poison control center or doctor for further treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for going to treatment. **RE-ENTRY INFORMATION-** Do not reenter treated areas until spray has dried.

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-334-7577

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. . Applicators and other handlers must shirt and pants, gloves and shoes and socks.

ENVIRONMENTAL- This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

EMERGENCY TREATMENT INFORMATION If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance and then administer artificial respiration, preferably mouth to mouth. Call a poison control center or doctor for treatment advice.. **Note to Physician: No specific antidote is available. Treat the patient symptomatically.** Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY-** Do not enter or allow others to enter treated areas until dusts have settled.

PRODUCT NAME: ONYX

GENERIC NAME: Bifenthrin

EPA NUMBER: 279-3177

ACTIVE INGREDIENT: Bifenthrin

MANUFACTURER: FMC Corporation

SIGNAL WORD: Warning

EMERGENCY PHONE NUMBER: 1-800-331-3148

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: May be fatal if swallowed. Causes skin irritation and moderate eye irritation. Do not get on skin or on clothing. Avoid breathing vapors or spray mist, and contact with eyes. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash contaminated clothing before reuse. All pesticide handlers must wear long sleeved coveralls worn over a minimum of short-sleeved shirt and short pants, socks, chemical-resistant footwear, chemical resistant gloves and protective eyewear. After the product is diluted in accordance with label directions for use, shirt, pants, socks, shoes and waterproof gloves are sufficient. **ENVIRONMENTAL:** This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters. Do not apply when weather conditions favor drift from treated areas. Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds. Do not apply this product or allow it to drift to crops or weeds on which bees are actively foraging. In New York State, this product may not be applied to any grass or turf area within 100 feet of a water body. **EMERGENCY TREATMENT INFORMATION:** **If swallowed:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. SIGNAL WORD: WARNING

EMERGENCY PHONE NUMBER: 800-832-4357

PRECAUTIONARY STATEMENTS: PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. May be fatal if swallowed. May be harmful if absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Applicators and other handlers must wear long-sleeved shirt and long pants, gloves, shoes and socks. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. **ENVIRONMENTAL HAZARDS** This pesticide is toxic to birds, estuarine/marine invertebrates and fish. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. This product is toxic to bees exposed to direct treatment. Do not apply this product while bees are foraging the treatment area. This product may impact surface water quality due to runoff of rainwater. **PHYSICAL OR CHEMICAL HAZARDS** Do not use or store near heat or open flame. Do not mix or allow to come into contact with oxidizing agents. Hazardous chemical reaction may occur. **EMERGENCY TREATMENT INFORMATION: If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** Keep unprotected persons out of treated areas until sprays have dried.

MD LICENSE 1312

PRODUCT NAME: ORNAMEC

GENERIC NAME: Fluazifop-P-butyl

EPA NUMBER: 2217-728

ACTIVE INGREDIENT: Fluazifop-P-butyl

MANUFACTURER: Gordon's

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Harmful if swallowed or absorbed through the skin.. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. .

ENVIRONMENTAL: This pesticide is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters. Do not apply when weather conditions favor drift from treated areas.

EMERGENCY TREATMENT INFORMATION: **If swallowed:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **RE-ENTRY INFORMATION :** None

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: PAGEANT INTRINSIC BRAND FUNGICIDE

GENERIC NAME: Pyraclostrobin and boscalid

EPA REGISTRATION #: 7969-251

MANUFACTURER: BASF

ACTIVE INGREDIENT: **pyraclostrobin:** (carbamic acid, [2-[[[1-(4-chlorophenyl)-1*H* pyrazol-3-yl]oxy]methyl]phenyl]methoxy-, methyl ester) **boscalid:** 3-pyridinecarboxamide,2-chloro-N-(4'-chloro(1,1'-biphenyl)-2-yl)

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-832-4357

PRECAUTIONARY STATEMENTS: HUMAN AND ANIMAL- Keep out of reach of children. Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL- This product may contaminate water through drift of spray in wind. This product has a potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. A level, well maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams and springs will reduce the potential for contamination of water from rainfall runoff. Runoff of this product will be reduced by avoiding applications when rainfall is forecast to occur within 48 hours. Sound erosion control practices will reduce this product's contribution to surface water contamination. This pesticide is toxic to fish and aquatic invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated area. Do not contaminate water when disposing of equipment wash waters.

EMERGENCY TREATMENT INFORMATION- If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If in Eyes: Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice. If Inhaled: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth. Call poison control center or doctor for further treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for going to treatment.

GENERIC NAME: Quinclorac

EPA REGISTRATION #: 2217-930

MANUFACTURER: PBI/Gordon Corporation

ACTIVE INGREDIENT: Quinclorac, Sulfentrazone, 2,4-D, dimethylamine salt, Dicamba, dimethylamine salt

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-877-800-5556

PRECAUTIONARY STATEMENTS: HUMANS AND DOMESTIC ANIMALS Keep out of reach of children. Causes moderate eye irritation. Avoid contact with eyes or clothing. Harmful if swallowed. All mixers, loaders, applicators, and other handlers must wear long-sleeved shirt and long pants, protective eyewear (such as goggles, face shield, or safety glasses), shoes and socks, chemical-resistant gloves (except for applicators using ground boom equipment) and chemical-resistant apron when mixing or loading, cleaning up spills or equipment, or otherwise exposed to the concentrate.

ENVIRONMENTAL HAZARDS This pesticide may be toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate.

PHYSICAL AND CHEMICAL HAZARDS Combustible. Do not use or store near heat or open flame.

EMERGENCY TREATMENT INFORMATION: **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or on clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **RE-ENTRY INFORMATION:** Do not enter or allow people (or pets) to enter the treated area until sprays have dried.

PRODUCT NAME: RES HORTICULTURAL OIL (Rainbow)

GENERIC NAME: Hort Oil

EPA REGISTRATION #: 74779- 9

MANUFACTURER: Rainbow Tree Scientific Advancements

ACTIVE INGREDIENT(S): Mineral Oil

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful absorbed through the skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Applicators and other handlers must wear: Long-sleeved shirt and long pants, chemical-resistant gloves. **ENVIRONMENTAL-** This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label. **EMERGENCY TREATMENT INFORMATION: IF SWALLOWED:** Immediately call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to a person. Do not give anything by mouth to an unconscious person. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses,

if present, after the first five minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice. Note to Physician: Petroleum distillate poses a aspiration pneumonia reaction. Only minor irritation should be expected from any type of exposure other than pulmonary aspiration. Ingestion may result in some gastroenteritis and mild diarrhea. Since systemic toxicity is expected, the added risk of aspiration from attempts to induce vomiting or lavage are deemed not warranted.

RE-ENTRY: Keep children and pets off of treated areas until sprays have dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: SAFARI 20 SG

GENERIC NAME: Dinotefuran

EPA REGISTRATION #: 86203-11-59639

MANUFACTURER: Valent

ACTIVE INGREDIENT(S): N-methyl-N'-nitro-2-[(tetrahydro-3-furany)methyl]guanidine

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-892-0099

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Do not allow contact with skin, eyes or clothing. Wash thoroughly before handling. Removed contaminated clothing and wash before reuse. **ENVIRONMENTAL-** This product is toxic to shrimp. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas. Do not dispose of equipment washwaters or rinsate into a natural drain or water body. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Dinotefuran and its degradate, MNG, have the properties and characteristics associated with chemicals detected in groundwater. The high water solubility of dinotefuran and its degradate MNG, coupled with its very high mobility and resistance to biodegradation indicates that this compound has a strong potential to leach to the subsurface under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow may result in ground water contamination. Periodic monitoring of shallow groundwater in the use area is recommended.

EMERGENCY TREATMENT INFORMATION **If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance and then administer artificial respiration, preferably mouth to mouth. Call a poison control center or doctor for treatment advice. **RE-ENTRY-** Keep children or pets off treated area until sprays have dried.

MD LICENSE 1312

PRODUCT NAME: SHIELD

GENERIC NAME: Chloropropham

EPA NUMBER: 2749-70

ACTIVE INGREDIENT: Isopropyl-m-chlorocarbanilate

MANUFACTURER: Aceto Agricultural Chemicals Corp

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Use only with adequate ventilation. Keep container closed when not in use. Workers must wear chemical resistant gloves (such as nitrile, butyl, neoprene, and/or barrier laminate) while handling potatoes which are wet. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Applicators and other handlers must wear long sleeved shirt and long pants, chemical resistant gloves (made of barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride or viton), and shoes plus socks. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Only protected handlers may be in the area during application. **ENVIRONMENTAL:** This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. **EMERGENCY TREATMENT INFORMATION:** **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for going for treatment.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: SIGHTLINE

GENERIC NAME: Triclopyr

EPA NUMBER: 74779-8

ACTIVE INGREDIENT: 3,5,6-trichloro-2-pyridinyloxyacetic acid, butoxyethyl ester

MANUFACTURER: Rainbow Treecare Scientific Advancements

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin or clothing . Avoid breathing mists or vapors. This product may cause skin sensitization reactions in some people. Applicators and other handlers must wear coveralls, chemical resistant gloves, shoes plus socks and protective eyewear.

ENVIRONMENTAL: This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or disposal of equipment washwaters. This chemical has properties and characteristics associated with chemicals found in groundwater. The use of this chemical in areas where soils are permeable particularly where the water table is shallow, could result in groundwater contamination.

EMERGENCY TREATMENT INFORMATION . If swallowed: Call a poison control center or doctor immediately for treatment advice Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for going for treatment. **RE-ENTRY INFORMATION:** do not allow entry into areas until sprays have dried, unless applicator and other handler PPE is worn.

PRODUCT NAME: SNAPSHOT 2.5TG

GENERIC NAME: Snapshot 2.5TG

EPA REGISTRATION #: 62719-175

MANUFACTURER: Dow AgroSciences

ACTIVE INGREDIENT(S): Trifluralin, Isoxaben

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-992-5994

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. Avoid breathing spray mists or dust. . Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Applicators and other handlers must wear long sleeved shirt, long pants and shoes plus socks.

ENVIRONMENTAL This pesticide is extremely toxic to freshwater marine, and estuarine fish and aquatic invertebrates including shrimp and oyster. Do not apply directly to water, or to areas where surface eater is present or intertidal areas below the mean high water mark. Do not apply in a manner that will directly expose canals, lakes, streams, ponds, marshes, or estuaries to aerial drift. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

EMERGENCY TREATMENT INFORMATION: **If in eyes:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye. **If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance and then administer artificial respiration, preferably mouth to mouth. Call a poison control center or doctor for treatment advice. **RE-ENTRY-** Twelve hours for agricultural applications. For applications in landscape settings and in non-croplands, do not enter and allow others to enter the treated area until dusts have settled.

PRODUCT NAME: SPEEDZONE

GENERIC NAME: 2,4-D

EPA REGISTRATION #: 2217-833

MANUFACTURER: PBI/Gordon Corporation

ACTIVE INGREDIENT(S): 2,4-D, 2-ethylhexyl ester, Mecoprop-p acid, Dicamba acid, Carfentrazone-ethyl.

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-877-800-5556

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Causes moderate eye irritation. Harmful if absorbed through the skin. Avoid contact with skin, eyes, or clothing. Harmful if swallowed. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. All mixers, loaders, applicators, and other handlers must wear long-sleeved shirt and long pants, shoes and socks, chemical resistant gloves, chemical resistant apron when mixing or loading, cleaning up spills or equipment, or otherwise exposed to the concentrate. **ENVIRONMENTAL:** This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate. **EMERGENCY TREATMENT INFORMATION:** **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **If on skin or on clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **NOTE TO PHYSICIAN:** Contains petroleum distillates – vomiting may cause aspiration pneumonia. **REENTRY INFORMATION:** Do not enter or allow people (or pets) to enter the treated area until sprays have dried.

MANUFACTURER: Nufarm Americas Inc

ACTIVE INGREDIENT(S): Propiconazole

SIGNAL WORD: WARNING

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL: Causes substantial but temporary eye injury. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or spray mist. Wear goggles or face shield. Wear rubber gloves and a long sleeve shirt when mixing, handling and/or applying the product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse. Applicators and other handlers must wear long sleeved shirt, long pants, chemical resistant gloves, shoes plus socks and protective eyewear. **ENVIRONMENTAL:** This pesticide is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. **PHYSICAL OR CHEMICAL HAZARDS:** Do not use or store near heat or open flame. **EMERGENCY TREATMENT INFORMATION: If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **If on skin or on clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **NOTE TO PHYSICIAN:** If ingested, induce emesis or lavage stomach. Treat symptomatically. **REENTRY INFORMATION:** Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours.

PRODUCT NAME: SUBDUE GR

GENERIC NAME: Mefenoxam

EPA REGISTRATION #: 100-794

MANUFACTURER: Syngenta

ACTIVE INGREDIENT(S): (R)-2-[(2,6-dimethylphenyl)-methoxyacetyl]amino}-propionic acid methyl ester

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-888-8372

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL-** Causes eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with eyes, skin, or clothing. Applicators and handlers must wear long-sleeved shirt, long pants, waterproof gloves, shoes and socks.

ENVIRONMENTAL- Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwaters.

EMERGENCY TREATMENT INFORMATION- **If in eyes-** Flush with plenty of water. Get medical attention if irritation persists. **If on skin-** Wash with plenty of soap and water. Get medical attention. **If swallowed-** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back or throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. **NOTE TO PHYSICIAN:** If ingested, induce emesis or lavage stomach. Treat symptomatically. **RE-ENTRY INFORMATION-** Do not apply this product in such a manner as to directly or through drift expose workers or other persons. Only protected handlers may be in the area during application. Do not enter treated areas without footwear until sprays have dried.

Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Applicators and other handlers must wear long-sleeved shirt and long pants, gloves, shoes and socks. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. **ENVIRONMENTAL HAZARDS** This pesticide is toxic to birds, estuarine/marine invertebrates and fish. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. This product is toxic to bees exposed to direct treatment. Do not apply this product while bees are foraging the treatment area. This product may impact surface water quality due to runoff of rainwater. **PHYSICAL OR CHEMICAL HAZARDS** Do not use or store near heat or open flame. Do not mix or allow to come into contact with oxidizing agents. Hazardous chemical reaction may occur. **EMERGENCY TREATMENT INFORMATION: If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** Keep unprotected persons out of treated areas until sprays have dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: TM 85 WDG

GENERIC NAME: Thiophanate-Methyl

EPA REGISTRATION #: 66222-145

MANUFACTURER: Makhteshim Agan of North America

ACTIVE INGREDIENT: Thiophanate-Methyl (dimethyl[1,2 phenylene]bis(iminocarbonothioyl)]bis [carbamate]

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-877-250-9291

PRECAUTIONARY STATEMENTS: HUMAN AND ANIMAL- Keep out of reach of children. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL- Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters.

EMERGENCY TREATMENT INFORMATION- If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If in Eyes: Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice. If Inhaled: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth. Call poison control center or doctor for further treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for going to treatment. **RE-ENTRY INFORMATION-** Do not enter or allow others to enter treated areas without protective clothing until sprays have dried.

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: TEMPO SC ULTRA

GENERIC NAME: Cyfluthrin

EPA REGISTRATION #: 432-1363

MANUFACTURER: Bayer.

ACTIVE INGREDIENT(S): Cyano (4-flouro-3-phenoxyphenyl)methyl3-(2,2-dichloroethenyl)-2,2-dimethyl-cyclopropanecarboxylate

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-334-7577

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse. **ENVIRONMENTAL-** This pesticide is extremely toxic to fish and aquatic invertebrates. Remove from premises or tightly cover fish tanks and disconnect aerators when applying indoors where such containers are present. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drift and run-off from treated areas may be hazardous to aquatic or organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters. Apply this product only as specified on the label. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply Tempo SC Ultra insecticide or allow it to drift onto crops or weeds on which bees are actively foraging. Additional information may be obtained by consulting your Cooperative Extension Service. **EMERGENCY TREATMENT INFORMATION: If on skin-** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. . Call a poison control center or doctor for treatment advice. **If inhaled-** Move person to fresh air. If person is not breathing, call 911 or ambulance, and then give artificial respiration, preferably mouth to mouth. Call a poison control center or doctor for further treatment advice **If in eyes-** Call a doctor or Poison Control Center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person. **Note to Physician:** No specific antidote is available. Treat the patient symptomatically.

RE-ENTRY INFORMATION: None

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: TORQUE

GENERIC NAME: Tebuconazole

EPA REGISTRATION #: 1001-87

MANUFACTURER: Cleary Chemical LLC

ACTIVE INGREDIENT(S): α -[2-(4-chlorophenyl)ethyl]- α -(1,1-dimethylethyl)-1H-1,2,4-triazole-1-ethanol

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN AND DOMESTIC ANIMALS: Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes, and clothing. Avoid breathing vapor or spray mist. Applicators and other handlers must wear long-sleeved shirt and long pants, chemical-resistant gloves, such as barrier laminate, or butyl rubber or nitrile rubber or neoprene rubber or polyvinyl chloride or Viton, and shoes plus socks.

ENVIRONMENTAL HAZARDS This pesticide is toxic to mammals, fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash-water or rinsate. Tebuconazole is known to leach through soil into ground under certain conditions as a result of label use. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted within 48 hours. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **EMERGENCY TREATMENT INFORMATION- If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **NOTE TO PHYSICIAN:** No specific antidote. Treat symptomatically. The compound does not cause any definite symptoms that would be diagnostic. Contact with the eyes may cause irritation. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For Emergency Medical Assistance, call the National Pesticide Information Center 1-800-858-7378. **RE-ENTRY INFORMATION:** Keep children and pets out of treated areas until sprays have dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: TOURNEY

GENERIC NAME: Metconazole

EPA REGISTRATION #: 59639-144

MANUFACTURER: Valent

ACTIVE INGREDIENT(S): 5-[(4-chlorophenyl)methyl]-2,2-dimethyl-1-(1H-1,2,4-triazol-1-ylmethyl)cyclopentanol

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 800-892-0099

PRECAUTIONARY STATEMENTS: HUMAN AND DOMESTIC ANIMALS- Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Applicators and other handlers must wear: long-sleeved shirt and long pants, socks and shoes.

ENVIRONMENTAL HAZARDS- This pesticide is toxic to shrimp, fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by disposing of equipment wash-waters or rinsate. Drift and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.

EMERGENCY TREATMENT INFORMATION: **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** Do not enter or allow others to enter treated areas until sprays have dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: TRANSTECT

GENERIC NAME: Dinotefuran

EPA REGISTRATION #: 59639-170-74779

MANUFACTURER: Rainbow Treecare Scientific Advancements

ACTIVE INGREDIENT(S): N-methyl-N'-nitro-N''-[(tetrahydro-3-furanyl) methyl] guanidine

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: For outdoor use only. **HUMAN AND DOMESTIC ANIMALS-** Harmful if swallowed. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. Applicators and other handlers must wear long-sleeved shirt and long pants, and shoes plus socks. **ENVIRONMENTAL HAZARDS-** This pesticide is toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas. Do not dispose of equipment washwaters or rinsate into a natural drain or water body. Do not contaminate water when disposing of equipment washwaters or rinsate. This compound is toxic to honey bees. The persistence in nectar and pollen suggest the possibility of chronic risk to honey bee larvae and the eventual instability of the hive. This product is toxic to bees exposed to residues for more than 38 hours following treatment. Do not apply this product to blooming, pollen-shedding or nectar-producing parts of plants during this time period, unless the application is made in response to a public health emergency declared by appropriate state and federal authorities. **PHYSICAL OR CHEMICAL HAZARDS:** Do not use, pour, spill or store near heat or open flame. **EMERGENCY TREATMENT INFORMATION:** **If swallowed:** Call poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to by the poison control center or doctor. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for further treatment advice. **RE-ENTRY INFORMATION:** Do not enter or allow others to enter treated areas until sprays have dried.

PRODUCT LABEL INFORMATION SHEET

MARYLAND POISON CONTROL CENTER 1-800-222-1222

MD LICENSE 1312

PRODUCT NAME: TREE-AGE G4.

GENERIC NAME: Enamectin Benzoate

EPA REGISTRATION #: 74578-10

MANUFACTURER: Arborjet

ACTIVE INGREDIENT(S): Enamectin Benzoate

SIGNAL WORD: Warning

EMERGENCY PHONE NUMBER: 1-800-255-3924

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL Keep out of reach of children.

Moderately irritating to the eye. Do not get in eyes or on clothing. Wear protective eyewear. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Applicators and other handlers must wear long-sleeved shirt and long pants, chemical-resistant gloves (such as barrier laminate; butyl rubber; nitrile rubber; or neoprene rubber), shoes and socks, and protective eyewear. **ENVIRONMENTAL HAZARDS**

This product is highly toxic to fish, mammals and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater. This product is highly toxic to bees exposed to direct treatment or residues on blooming trees. **PHYSICAL OR CHEMICAL HAZARDS** Do not use or store near heat or open flame. **EMERGENCY TREATMENT INFORMATION:**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:**

Call poison control center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **Note to physician:**

Early signs of intoxication include dilation of pupils, muscular incoordination, and muscular tremors. Vomiting within one-half hour of exposure can minimize toxicity following accidental ingestion of the product; rapidly after exposure (< 15 minutes) administer repeatedly medical charcoal in a large quantity of water or ipecac. If toxicity from exposure has progressed to cause severe vomiting, the extent of resultant fluid and electrolyte imbalance should be gauged. Appropriate supportive parenteral fluid replacement therapy should be given, along with other required supportive measures (such as maintenance of blood pressure levels and proper respiratory functionality) as indicated by clinical signs, symptoms, and measurements. In severe cases, observations should continue for at least several days until clinical condition is stable and normal. Since emamectin benzoate is believed to enhance GABA activity in animals, it is probably wise to avoid drugs that enhance GABA activity (barbiturates, benzodiazepines, valproic acid) in patients with potentially toxic emamectin benzoate exposure. **RE-ENTRY INFORMATION:** None.

SIGNAL WORD: WARNING

EMERGENCY PHONE NUMBER: 800-424-9300

PRECAUTIONARY STATEMENTS: PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Applicators and other handlers must wear long-sleeved shirt and long pants, gloves, shoes and socks. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. **ENVIRONMENTAL HAZARDS** This pesticide is toxic to birds, estuarine/marine invertebrates and fish. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. This product is toxic to bees exposed to direct treatment. Do not apply this product while bees are foraging the treatment area. This product may impact surface water quality due to runoff of rainwater. **PHYSICAL OR CHEMICAL HAZARDS** Do not use or store near heat or open flame. Do not mix or allow to come into contact with oxidizing agents. Hazardous chemical reaction may occur. **EMERGENCY TREATMENT INFORMATION: If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY INFORMATION:** Keep unprotected persons out of treated areas until sprays have dried.

MD LICENSE 1312

PRODUCT NAME: WASP-FREEZE

GENERIC NAME: Allethrin, Phenothrin

EPA REGISTRATION #: 499-362

MANUFACTURER: Whitmire Micro-Gen

ACTIVE INGREDIENT(S): Allethrin, Phenothrin

SIGNAL WORD: Caution

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL-Keep out of reach of children. Harmful if swallowed, inhaled or if absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Wear chemical resistant gloves and protective eyewear when handling and applying this product. **ENVIRONMENTAL-** This product is highly toxic to fish and wildlife. Do not apply directly to any body of water. Do not contaminate by cleaning of equipment or disposal of wastes. **PHYSICAL** Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. **EMERGENCY TREATMENT INFORMATION:** **If Swallowed:** Immediately call a doctor or poison control center. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if preset after the first 5 minutes, then continue rinsing eye. Flush with plenty of water. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or ambulance, and then give artificial respiration, preferably mouth to mouth. Call a poison control center or doctor for further treatment advice **RE-ENTRY INFORMATION:** None

PRODUCT NAME: QUALI-PHITE F

GENERIC NAME: QUALI-PHITE F

EPA REGISTRATION #: 83472-1-53883

MANUFACTURER: Quali-Pro

ACTIVE INGREDIENT(S): Mono-and di-potassium salts of Phosphorous Acid

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 866-897-8050

PRECAUTIONARY STATEMENTS:**HUMAN & ANIMAL-** Keep out of reach of children. Harmful if swallowed. Harmful if inhaled. Harmful if absorbed through skin. May irritate skin. Avoid contact with skin or eyes. Causes moderate eye irritation. **ENVIRONMENTAL-** Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by disposal of equipment wash waters. **EMERGENCY TREATMENT INFORMATION:** **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. **RE-ENTRY INFORMATION:** Four hours for agricultural applications. Do not enter until treated area is dry for all other applications.

PRODUCT NAME: XYTECT 2F

GENERIC NAME: Imidacloprid

EPA REGISTRATION #: 42750-115-74779

MANUFACTURER: Rainbow Treecare Scientific

ACTIVE INGREDIENT(S): 1-[6-chloro-3-pyridinal)methyl]-N-Nitro-2-imidazolidnimine

SIGNAL WORD: CAUTION

EMERGENCY PHONE NUMBER: 1-800-424-9300

PRECAUTIONARY STATEMENTS: HUMAN & ANIMAL- Keep out of reach of children. Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before re-use. Applicators and other handlers must wear long sleeved shirt, long pants water-proof gloves and shoes and socks. **ENVIRONMENTAL-** This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. **EMERGENCY TREATMENT INFORMATION** **If swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **Note to Physician:** No specific antidote is available. Treat the patient symptomatically. Have the container or product label with you when calling a poison control center or doctor, or going for treatment. **RE-ENTRY-** Keep children or pets off treated area until sprays have dried.
