

Meet Your Arborist Representative

Kevin Carr

Arborist Representative

Originally from Boston, Massachusetts, I moved to Maryland after earning Arboriculture and Plant Pathology degrees at University of Massachusetts. I worked for a local Massachusetts tree company while in high school and college which sparked my interest in plant health care as a career. My personal interests include geology, archeology, fine pruning, and plant identification. I am a Board Certified Master Arborist, Certified Tree Safety Professional (CTSP) and Tree Risk Assessment Qualified (TRAQ). As the manager of the Clackamas Office team I take great pride that the Clackamas office is a leader in safety within the Bartlett Company. The opportunity to work with a highly skilled team to improve the health and safety of trees and shrubs on client landscapes gives me great satisfaction.

About Bartlett Tree Experts

Bartlett Tree Experts is a third generation family-owned company in business since 1907. We have over 100 offices located throughout the United States, Canada, England, and Ireland. We specialize in preventive health care for your trees and shrubs including soil management, insect and disease management, and general tree maintenance such as pruning, cabling and bracing, lightning protection, planting and removal. Bartlett Tree brings the resources of world-class research with our own research laboratory right to your home via Certified Arborists, Arborist Representatives, and Plant Health Care Technicians. We are committed to providing scientifically based landscape management recommendations while delivering safety, honesty, integrity, complete dependability, and quality service at a level that exceeds your expectations. We look forward to meeting with you and discussing your tree and shrub care needs.
