

**BARTLETT
TREE EXPERTS**

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Chris Cortese

Chris began his green industry career a few years after high school when an arborist friend asked him if he'd like to learn about tree work and earn a few dollars at the same time. From that very first experience he realized that being outdoors and getting paid was a winning combination! Chris spent the next several years working as a ground crew foreman and spray technician while simultaneously operating a small landscape maintenance business. He later crossed over into the lawn care side of the industry learning about residential turf as a technician and service manager for a lawn care franchise. Eventually his strong appreciation and love of trees led him back to arboriculture. He has over twenty-five years of experience, is licensed by the NJ DEP and attends annual industry training events.

Chris believes that his broad industry experience coupled with the excellent, one of a kind resources available from Bartlett will provide his clients with the best possible care for their landscapes as an Arborist Representative.

He is happily married and proud father to six amazing children! He enjoys reading, taking local hikes, playing acoustic guitar, working out and good coffee.
