

**BARTLETT
TREE EXPERTS**

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Diana Salazar

Diana's love for the outdoors began when she was a kid. She spent every summer in the Sierra Gorda de Queretaro, hiking all the trails and climbing all the trees she could. Nature was her backyard.

A passion for the outdoors followed her as an adult as she transformed her love for nature into a career at Stephen F. Austin State University. There, she graduated with a Bachelor of Science in Forestry and Wildlife Management.

Soon after graduating, Diana continued her career in arboriculture with Bartlett Tree Experts. Through Bartlett Tree Experts, Diana has acquired experience in climbing, pruning, and treating trees for various pests, diseases and nutrient deficiencies. With a varied set of skills and as a Houston native, Diana has the knowledge and training to help with any problems that may arise in a Houston landscape. She looks forward to helping clients meet their landscape goals as an Arborist Representative.

When not working, Diana spends her time camping and hiking with her dog, Allie. She loves traveling, and has visited many countries, enjoying their diverse natural landscapes.
