

**BARTLETT
TREE EXPERTS**

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Robert Hearne

Bobby spent much of his youth living on a heavily wooded property in southeast Texas where he developed a love of nature and spending time outdoors. His interest in ecology and geology inspired him to earn a bachelor's degree in Forestry from Stephen F. Austin State University. He was a research assistant on projects concerning forest fire management and hazard tree assessment.

Before joining Bartlett Tree Experts in San Antonio, Bobby worked in our Austin office. He is a Certified Applicator through the Texas Department of Agriculture. He's excited to meet our wonderful clients and care for their trees. Bobby's favorite native Texas tree is the Longleaf Pine, which can only propagate after being exposed to fire. His second favorite tree is the Magnolia because they are stunningly beautiful and unique.

In his spare time, Bobby enjoys spending time with his family, watching movies and listening to live music.
